Shortlisted for the **National Play Festival** and included on the **2012 VCE Drama Curriculum**, **The Shift Theatre** proudly bring you their new work; **THE GIRLS IN GREY**. Playing from the **25th of April to the 13th of May** at **Theatre Works in St Kilda**, this powerful story commemorates the service of Australian nurses who served during World War One, and seeks to inform, educate and preserve the voices of these women for a new generation.

From a story developed and woven through eyewitness accounts, comes a poetic and stark interpretation of commitment and courage. Commended by historians for its authenticity, **THE GIRLS IN GREY** brings the voices of three Australian nurses into the imaginative world of theatre, in a vivid and candid retelling of life on active service.

This season will open on Anzac Day and will be running during the **2012 Military History and Heritage Week (21st to the 27th of April)**.

Proudly supported by **The Cybec Foundation, The Royal Historical Society of Victoria, The Shrine of Remembrance and Military History and Heritage Victoria** (among others) **THE GIRLS IN GREY** is a powerful examination of the lives of three Australian women, during this all-consuming point in history. Founded by **Carolyn Bock and Helen Hopkins**, **The Shift Theatre** is focused on presenting dynamic works with strong roles for women, both from existing texts and in the development of new works.

Members of the media are invited to attend a performance during this season, please email Eleanor@sassyred.com.au to reserve your seats.
